EXPERIENCE

Volunteer Scratch Instructor | Emganwini Hub | 2025 – Present

- Instruct children in Scratch programming, fostering computational thinking and technical literacy.
- Facilitated engagement with software development coursework and community project reports.
- Automotive Precision Machinist
- Applied technical expertise in precision machining to maintain high-quality automotive manufacturing standards.

Software Development Student | Uncommon Bulawayo | 2025 – Present

- Currently undergoing an intensive 12-month specialization track in software development.
- Previously completed comprehensive crash courses in digital marketing and product design.
- Developed a weather dashboard prototype utilizing OpenWeatherMap APIs and HTML structures.
- Built a luxury web application for The Deck at Banff Lodge, featuring a digital menu and reservation system; prioritized custom vanilla CSS for high-fidelity aesthetic control.
